# NEW QMotion Fabric Additions

We're excited to announce the launch of four new fabric collections, adding over 80 fabrics to our offering. Featuring trend-setting colors and textures, our new fabrics offer the perfect complement to any home's design aesthetic. Browse and order samples of these fabrics on our QMotion Sampling Portal.

## Verona Daylight & Verona Twilight

Available in eight colors, Verona Daylight and Verona Twilight offer increased privacy while adding elegance to your space. These unique fabrics are distinguished by loosely twisted yarns and a soft, raised surface. For complete light blockage and privacy, choose Verona Twilight with 0% openness. For muted views and minimal light filtering, choose Verona Twilight with <1% openness.

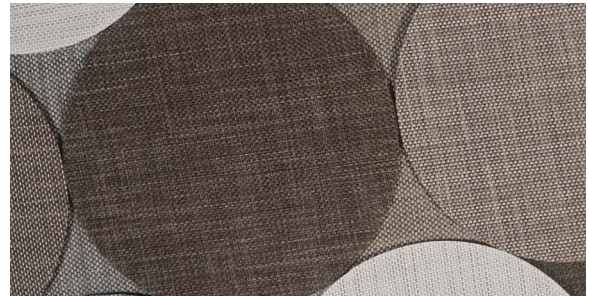

## S Screen

The S Screen collection provides the look and feel of a high-end, natural textile with an enhanced depth and texture. Available in two openness factors and twelve colors, S Screen offers a sophisticated style and glare control. With a variety of neutral colors, S Screen will add an alluring effect to any window.

## S Screen Naturals

The S Screen Naturals provide a rich, woven texture available in twelve different colors. The decorative fabrics feature a subtle sheen to enhance the effect of natural daylight. With an openness factor of 5%, the S Screen Naturals will transmit beautiful controlled light to complement the home.

## E Screen Deco

Available in fourteen neutral colors, E Screen Deco offers a decorative extension to our existing E Screen fabrics. Featuring a sophisticated, cross-weave texture, these fabrics offer style and function. With 1% and 3% openness factors, E Screen Deco maintains external views and while blocking unwanted glare.
